Payroll Control Center
- Real Time Process Insight
- Faster Correction Activities
- New Payroll User Experience

Data Privacy
- Time Dependent Locking Concept
- ILM Objects for HR Key Components

(Release 6.0 EHP 8)

Maintenance strategy

- To manifest the long-term predictability of the Business Suite and in support of the Innovation Strategy and Roadmap the standard maintenance will be extended
- SAP extends mainstream maintenance for the Business Suite core applications[1] to December 2020

[1] SAP Business Suite includes the core applications (SAP ERP 6.0, SAP PLM 7.0, SAP CRM 7.0, SAP SCM 7.0, SAP SRM 7.0), supplementary applications, and industry applications.
[2] Mainstream Maintenance for SAP NetWeaver 7.0x ABAP will be extended through December 2020 and for NetWeaver 7.0x Java (also incl Dual Stacks) until December 2017.
[3] If JAVA based ERP Components are used an Update to at least SAP ERP EHP4 has to be performed until December 2017.

Payroll Control Center

"Redefining Payroll with a new User Experience"
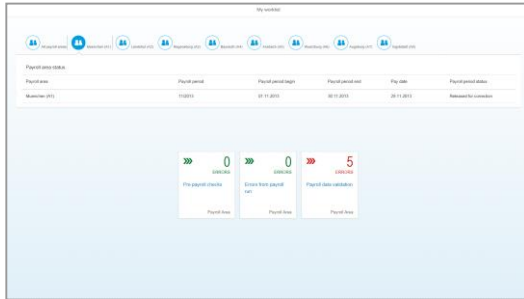

Payroll Process Support
- Real-time insight into data inconsistencies and potential payroll errors
- Faster and smarter automation of reconciliation activities
- Automatic creation of audit trails
- Improved status handling
- 3rd party remittance functionality
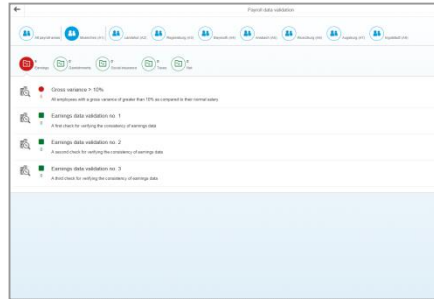

User Experience
- Completely new SAP Payroll user experience
- SAP Fiori as Design paradigm
- Improves usability and streamlines the process

Payroll Control Center

Real-time insight into data inconsistencies and potential payroll errors

Faster and smarter automation of reconciliation activities

Reduce time to resolve issues and inconsistencies

**Real-Time
Business Processes**

Optimized processes for pre and post payroll data validation

**Single Source
of Truth**

Highly intelligent business rules automatically identify potential issues pre and post payroll

**Personalized
User Experience**

Distribute the workload with role based Payroll Control Center

SAP Payroll delivery options

Employee Central

Employee Central Payroll*
Cloud

SAP SuccessFactors

- Standardized payroll with full Employee Central* functionality
- SaaS affordability
- SAP Quality solution for Private and Public Cloud consumption
- Payroll Control Center

BPO*
Outsourcing

Partner BPO

- Single vendor experience for subscription license, services and support
- Fully managed BPO service for one or more functions
- Capitalize on true Cloud and BPO benefits

**SAP SuccessFactors Managed Payroll***
SAP ERP Payroll*

EPI·USE   NGA

- Complex payroll outside standard
- Retains Cloud user experience
- Payroll Control Center
- Integrated with Employee Central* and SuccessFactors Talent*

SAP ERP Payroll From On-Prem to the cloud

Do you have:

a. Complex time and attendance?
b. Non standard processes and customizations?
c. More than SAP SuccessFactors EC* countries?

Y

Managed Payroll*

N

Are you willing to re-implement?

Y

Employee Central Payroll*

N

Managed Payroll*

Considerations

1. Effort for carving out personnel administration

2. Executive team needs to agree on standardization/implementation

3. Is payroll aligned with Employee Central* implementation

SAP Managed Payroll: Model

Hosted SAP Managed Payroll

- One vendor for subscription license, services and support
- Journey to the Cloud for complex SAP ERP Payroll systems

SAP provides:

- Move from maintenance to subscription-based model for SAP HCM Payroll
- SAP provides support (hosting and Managed Payroll-related tickets are forwarded to the Partner)

Partner:

- Partner provides hosting and SAP Managed Payroll (including support)
- Provides payroll migration
- Provides application implementation, management and support services

Transition complex payroll to the cloud

Move your HR and Payroll systems to the Cloud to reap benefits as well make the most of the innovation that SAP offers in the cloud HR Suite

Challenges	Key Business Capabilities	Benefits
• Complex, customized on-premise SAP Payroll	• Payroll is hosted and operated in the partners cloud	• Does not require payroll re-implementation
• Difficult to reconcile payroll information	• Managed services for legal change support and maintenance	• Decreases cost of running payroll in-house
• Employee Central Payroll does not currently have the required functionality	• **Not** a re-implementation	• Reduces risk of noncompliance penalties
• Hard to keep the payroll environment current		• Move capital expenses to operating expenses

SIGUIENTES ACTIVIDADES

¿Que continua?

1. Encuesta para decidir sobre cuál de los temas mencionados se desea recibir más información. O bien, para tratar otros temas de la encuesta mencionada al inicio de está presentación.

2. Decidir la fecha de la siguiente sesión.

PROXIMOS EVENTOS
