8 of the top 10 Insurance Companies

7 of the top 10 Telcos

7 of the top 10 Global Services

4 of the top 10 Energy/Utilities

7 of the top 10 Global Banks

6 of the top 10 Financial Services

Key Benefits

80
faster

Accelerate release cycles

Leveraging artificial intelligence and the efficiencies of the cloud, you can accelerate software delivery by reducing test cycle times as much as 80%.

90
automated

Automate and reduce costs

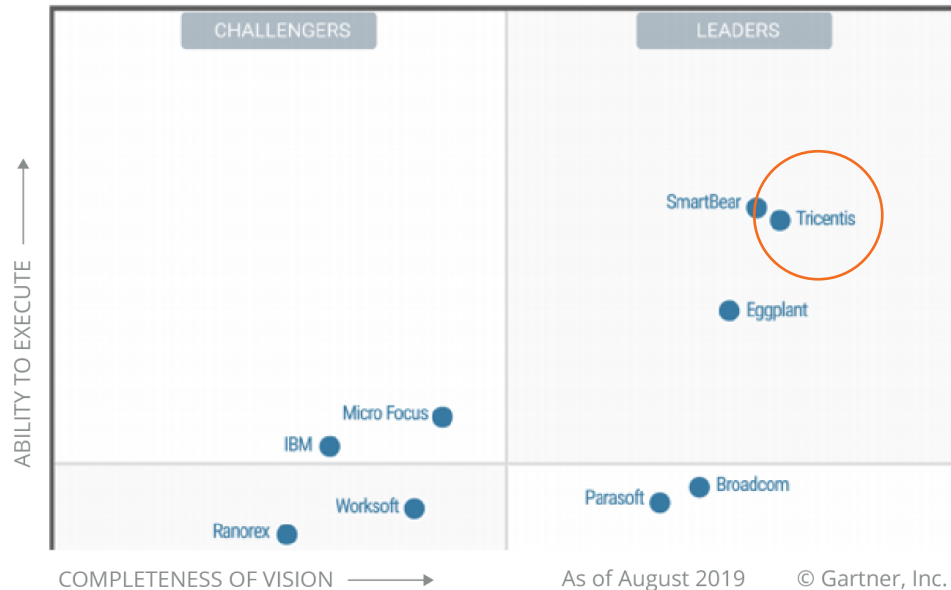

Our platform is AI-driven and codeless, helping you eliminate error-prone manual testing and achieve end-to-end test automation rates >90% to reduce costs.

85
risk coverage

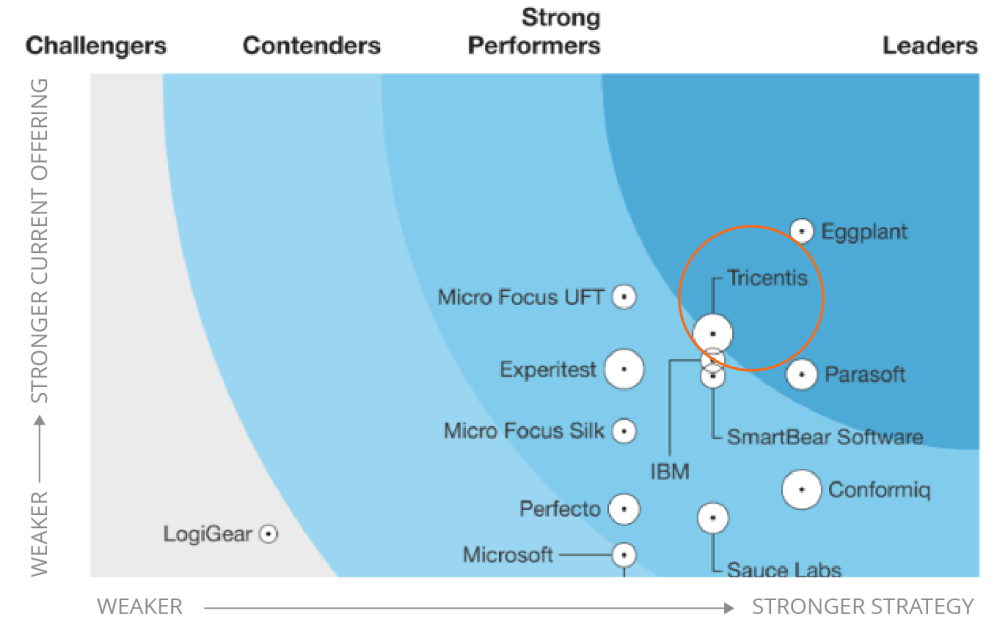

Improve software quality

Boost release confidence and obtain business risk coverage >85%. The quality of your software goes up. The stress of your day goes down.

Top Analyst Recognitions

"Tricentis Tosca supports testing of modern, legacy and packaged applications. Customers scored Tricentis high in terms of satisfaction of the product meeting their needs."

"Tricentis offers a strong scriptless environment, which is well designed with nicely engineered wizards that help design and automate tests quickly and effectively in a technology-independent way."

SAP System

Tyson – Accelerating Delivery to S4Hana

THE SITUATION

- Massive SAP/S4 Hana transformation project. Tyson had 2% test automation rates with over 350+ licenses of HP and Worksoft
- Expanding, complex infrastructure of shared system components with SAP
- Become more Agile and DevOps focused

THE NEED

- Implement an automated testing platform for their SAP transformation
- Dramatically speed up the delivery of software
- Increase the business risk coverage
- Goal to deliver test data to the teams at a much faster rate

WHY TRICENTIS

- Ease of use
- Complex (yet maintainable) regression tests across multiple endpoints
- Extensive platform and protocol support
- Total cost of ownership

Snapshot

Usual business risk coverage	38%
with Tosca	75%

Usual testing cost	\$44,030,954
with Tosca	\$18,539,370

Speed to market	+759%
-----------------	-------

ROI with Tosca	+58%
----------------	------

Break even period	6 Mos.
-------------------	--------

Bose – Increased # of Releases by 3.5x

THE SITUATION

- Desperately needed help managing and supporting SAP packs and custom releases

THE NEED

- Impact analysis tied directly to test automation efforts and integration with ALM solution

WHY TRICENTIS

- Smart impact analysis
- Code quality analysis
- Ongoing transactional usage analysis
- User usage statistics/analysis—our ability to identify who is doing what and who isn't
- Ability to seamlessly integrate with Solution Manager's ChaRM
