

10 Steps to S/4HANA for Customers Bootcamp

Registration form

Team Members

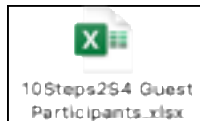

The value of this workshop resides in running the hands-on exercises and understanding the concepts explained during the presentation sessions. SAP S/4HANA experts will explain how to convert an SAP ERP system to S/4HANA during these sessions.

Important: Three members, one each with Basis, Finance, and Logistics are required per customer team. ABAP resource is recommended but optional.

	First Name	Last Name	Email Address
Basis expert			
Finance expert			
Logistics expert			
ABAP expert (optional)			

Additional Members

Additional members from your organization may be enrolled as guests. Guest participants will be able to join the presentation sessions and learn, but no system access will be provided. Double click the embedded excel file below to open, provide guest participant information, and save. The completed excel file will get embedded back automatically once you save.

Furthermore, we understand that:

- This bootcamp will focus on SAP S/4HANA system conversion
- All team members are expected to attend the presentation sessions
- All team members are expected to complete their respective hands-on activities in the system after every presentation session
- Completion of hands-on activities is mandatory to proceed to the next stage in the system conversion process in this program
